MASPION SOLVENT CEMENT

Maspion Glue and Masplas solvent cement are used for pipe, fitting and all PVC material products.

There are two kinds of solvent cement, namely quick drying type (no.80) and slow drying type (no.100). Quick drying type is used for small pipe diameter or processing in door. Slow drying type is used for pipe large diameter or processing in outdoor.

Content : 45 gram / tube
500 gram / can
1000 gram / can

Lem PVC Maspion Glue dan Masplas dipakai untuk pipa, fitting serta semua jenis produksi dari bahan PVC. Ada dua tipe lem, yaitu tipe cepat kering (no.80), lambat kering (no.100). Tipe cepat kering digunakan untuk pipa diameter kecil atau proses dalam ruangan. Sedangkan lambat kering digunakan untuk pipa diameter besar atau proses luar ruangan.

Isi : 45 gram / tube
500 gram / kaleng
1000 gram / kaleng

LUBRICANT

Maspion Lubricant is suitable for lubricating joint components. It has no deteriorating effect on the Rubber Ring joint, pipe material and non toxic.

Content : 1000 gram / can

PELUMAS

Pelumas Maspion adalah pelumas yang tepat untuk melicinkan / mempermudah penyambungan pipa yang memakai gelang karet. Pelumas ini tidak ada efek sampingan terhadap gelang karet, bahan pipa dan tidak beracun.

Isi : 1000 gram / kaleng
