All Clipsal Rigid PVC Conduit and Fittings are manufactured in strict accordance with the British Standard BS6099 & BS4607. Top quality, High Impact Polyvinyl Chloride is used to manufacture the conduit and Fittings. Also available in black.

Our collection of electrical accessories offers versatility and refined designs that meet our customers interior design needs. We ensure that our products not only keep up with the modern lifestyle but also provide endless options for contemporary living.

Clipsal provides Quality Assurance with internationally recognized safety standards, such as British Standard (BS) and International Electro technical Commission (IEC) Standard, to ensure that we will consistently exceed our customers expectations in both product design and quality.

## About Us

We started our business in electrical accessories in 1981 as a sole agent under company PT. Lelco Trindo with only 4 employees. We were the pioneer to bring Clipsal's products from Australia to the Indonesian market. In order to improve better market and working circumstances, we decided to establish our own organization in 1987, therefore we are able to continue giving the best products and services to our clients.

At the moment, PT. AGN has more than 100 employees. In the daily works the marketing team working together with Mechanical Engineering Consultants, Contractors, Architects and Interior Designer, Developer and Retailer.

We at PT. AGN always improve and keep our pace with the market condition to make our company well placed to deliver the customer's needs.
